

CWA-AT&T Orange Mobility-Bargaining Report #24

June 3, 2022

As we inch closer to a deal, wages remain a sticking point. We have agreements on many very good improvements for every group in the Orange Contract, but the Company still needs to reach into their pockets to secure fair raises. AT&T has been making record profits, paying executives millions of dollars and paying dividends to their shareholders. It is time they also take care of their employees. We need all of you to continue, and ramp up, mobilization for just a little while longer. As we have said before, all of the gains we are making are a direct result of your hard work and engagement. Please keep it up, and stay in touch with your locals for more activities. We know mobilization works, and we are aware it's been a long process, but let's fight right up to the end. Let the company know you will fight for what you deserve!

WE Will Prevail—ONE DAY LONGER, ONE DAY STRONGER!!

In Solidarity:
