Attention All CWA Members

If you've been offered a package by Verizon, you must consider the following **before you make a decision**:

- **What are my investment options?**
- **How will it affect my taxes?**
- **How can I get the most out of my package?**
- **How do I protect my family?**

I have been servicing the tax and financial needs of union members for over 25 years. As a former union member, I understand how important this decision can be.
